

Guillermo Rubio

Full Stack Developer

WORK EXPERIENCE

Full stack developer at Multiplica USA/México/Spain

MULTIPLICA - MARCOM MULTIPLICA

JUNE 2021 - PRESENT

- Worked on the main multiplica site: Headless Wordpress as a CMS using NuxtJS + tailwind in the front-end
- Got certified as a Magnolia Developer
- Relevant Experience Index Quiz on Angular 13 using tailwind as CSS framework
- Content Rate Optimization development for MSC Cruises (A/B tests, Split URL test) all in HTML, CSS and Vanilla JS

Front end developer at Multiplica México

MULTIPLICA

OCTOBER 2018 - JUNE 2021

- Mi Telcel web redesign using PUG + bootstrap + jQuery (stack required by the client Telcel)
- Plan Seguro insurance company wanted to create a system for their agents, to offer the right plan for their customers. Front end developed with Angular 8 consuming Rest API (from a custom CMS) and making the algorithms in both back and front to match all the data.
- Plan Seguro profiler; a quiz to offer the client the perfect plan that suits their necessities. Developed with Angular 8 + Angular material
- Development and integration of HSBC PSSW, where we seek to improve and facilitate the process of creating accounts for new HSBC users. Developed with Angular 6 and consuming Rest services from HSBC
- HSBC Fintip a financial coach app to help the users have a better financial health. Helped in the development of the iOS app using a clean architecture.
- Santander Autocompara Redesign of the Autocompara portal to sell car insurance. Using AngularJS and bootstrap

Other projects

- Esedigital marketing company 2015-2016: Front, Back and mobile (hybrid) developer, with lots of small projects always getting ahead and keeping the customers happy.
- Xeon-it solutions 2014-2015: Front end, Back end and mobile developer, with lots of small projects.
